

# The City of Stockholm IDN Policy

The Registry Agreement between The Internet Corporation for Assigned Names and Numbers (“ICANN”) and City of Stockholm (“Registry”) was amended on 11 January 2018, to allow the Registry to support registrations on the second level for the following Internationalized Domain Names (IDNs) languages/scripts:

Swedish language SV

## 1 Reference to RFCs

Registration of the supported IDNs must be done in accordance with RFC 5890, RFC 5891, RFC 5892, RFC 5893, RFC 5894.

## 2 IDN Variants

By default, variant IDNs are blocked from registration.

## 3 Registration Terms and Policies

As per ASCII registrations, IDN registrations for .STOCKHOLM are eligible for registration on a first come/first served basis.

In addition to this IDN Policy, all other .STOCKHOLM Registry policies apply and can be found at <https://nic.stockholm/policies/>.
